1. [redacted] called to inform us that although his office relations with O/CI are most pleasant, a situation has arisen which he intends to take up directly with [redacted]. He wanted us to know about it ahead of time. Whenever nuclear energy matters are published by O/CI, they are well coordinated at the time of writing with NED. However, frequently the article will be edited to the extent that the original meaning is lost and inaccuracies are introduced. Edited copy is not checked back with NED. [redacted] will request of [redacted] that this always be done.
